

Guest Wifi

Midland Networks offers a completely managed, fully featured hospitality Wifi

There are no upfront costs, and pricing starts at just £5.00 per month with flexible contract terms

Overview

Guest Wifi is now a must have for hotels, hospitality venues and coffee shops. It is now fast becoming a necessity for all industries, as there is a growing expectation that all public areas and businesses provide guest wifi for public use, often for free. Midland Networks provide a business-grade wifi service built around the needs of your business and customers.

Wifi Features

- Secure
- Scalable
- PCI Compliant
- Low Cost
- Fully Managed
- Excellent Marketing Tool

Analytics & Marketing

In addition, our guest wifi service comes with a built in editor and analytics service, allowing you to customise your visitors experience and collect valuable data that can help you connect with your customers, target products or solutions, and grow your business. The editor allows the creation of branded welcome pages – allowing you to add or change logos, messages or offers whenever you want – as well as allowing for user registration and email capture

Content Filtering

Optional content filtering is also available with our guest wifi to ensure a safe or family friendly experience. Content filtering is flexible and customisable, allowing you to choose which content to block by category or at individual domain level.
